

**Course Description:** This course is intended for novice web designers, web developers, and web graphic artists, and also for media marketing personnel who need to build simple websites and want to utilize the features of Adobe Dreamweaver CS4. In this course, you will design, build, and upload a website using Dreamweaver.

**Course Objective:** You will design, build, and upload a website.

**Prerequisites:** It is recommended that you first take the following course Web Design with XHTML, HTML, and CSS: Level 1 or have equivalent knowledge and are familiar with the Adobe CS4 suite.

**Course Length:** 2.0 Day(s)

**Performance Based Objectives:**

Upon successful completion of this course, students will be able to:

- explore and customize the Adobe Dreamweaver interface.
- build a website.
- work with web pages.
- work with reusable site assets.
- work with different types of links.
- upload a website.

---
